

Alex Menendez

Full-stack developer specializing in TypeScript, React, and the MERN stack with a background in psychology and welding.
Portland, OR | (737) 217-9087 | menendez.alex.d@gmail.com | [git](#) alexis-menendez | [in](#) in/alex-d-menendez

EDUCATION

[Rice University](#). Houston, TX. June, 2025.

Certificate of Completion. 4.0 GPA.

Completed an intensive Web Development course, covering full-stack development, software engineering practices, and advanced programming techniques such as:

- Built and deployed **full-stack** applications (**MERN stack**)
- Practiced **version control**, **Git workflows**, and **CI/CD pipelines** using **GitHub** and **GitHub Actions**
- Integrated **REST** and **GraphQL APIs**, implemented **JWT-based authentication**, and designed protected routes
- Created responsive, accessible UIs using **Tailwind CSS**, **CSS Modules**, and **custom animation** techniques
- Collaborated using **Agile methodologies**, managing projects through **GitHub Projects**, **Discord**, and **Slack**
- Gained hands-on experience with technologies such as **WebSockets**, **HTML**, **CSS**, **JavaScript**, **TypeScript**, **Git**, **Node.js**, **Express**, **MongoDB**, **React**, and **Python**.
- Exposure to **AI & Machine Learning** tech such as **ML models**, **OpenAI API integration**, **prompt engineering**, and deploying **AI-enhanced** features.

[Austin Community College](#). Austin, TX. Spring 2025.

Associate of Arts in Psychology. 4.0 GPA.

SKILLS

Languages/Frameworks: JavaScript (ES6+), TypeScript, Python, HTML, CSS, JSX/TSX

Frontend: React (Hooks/Component Architecture), Tailwind CSS, CSS Modules, Responsive Design, UI/UX Principles

Backend/Databases: Node.js, Express, MongoDB (Mongoose), REST APIs, GraphQL, JWT Authentication, WebSockets, SQL

Tools/DevOps: Git & GitHub, GitHub Actions (CI/CD), Postman, Vite, Render, Netlify, AWS, VS Code, npm

Project Management/Workflow: Agile Methodologies, GitHub Projects, Trello, Slack, Figma

Machine Learning: OpenAI API integration, prompt engineering, and deploying AI features in full-stack applications

Additional Skills: Research & Analysis, Team Supervision & Collaboration, Process Improvement, Document Management

PROJECTS

[Personal Developer Portfolio](#) | *Personal Project* | <https://alex-menendez.onrender.com/>

Designed and deployed a responsive, space-themed portfolio to showcase technical projects and development skills created using: **React, JavaScript, TypeScript, Vite, Netlify, Render, CSS Modules**

- Implemented animated starfields, route-based navigation, and scroll-based interactions
- Optimized for performance and accessibility using modern frontend tooling
- Deployed via Netlify and later Render, with continuous deployment linked to GitHub

[Lattice](#) | *Personal Project* | <https://github.com/alexis-menendez/Module-17-Lattice>

A niche social platform for mushroom enthusiasts to share field notes, ID requests, and photos of fungal finds created using:

MongoDB, Express, React, Node.js, Tailwind CSS, CSS Modules, JWT, WebSockets

- Implemented real-time comment threads using WebSockets for live collaboration
- Designed user profiles, post feeds, and moderation tools with secure access control
- Focused on clean UI/UX design, mobile responsiveness, and community-friendly interactions

PROJECTS *(continued)*

How Not To Die | *Frontend & Documentation Lead* | <https://github.com/alexis-menendez/HowNotToDieDemo>

*A narrative-based space survival game simulating exploration of alien planets through a retro console interface created using: **PostgreSQL, Sequelize, Express, React, Node.js, TypeScript, JavaScript, CSS Modules, Vite, Render***

- Engineered immersive UI with animated planet travel, explorer logs, and API weather tools
- Designed branching logic, hidden unlocks, and fail states using dynamic routing and conditional state
- Built backend with Sequelize models and relational queries to support log data and planet progression

InnerOrbit | *Project Lead, UI/UX Designer* | <https://github.com/alexis-menendez/Inner-Orbit>

*A full-stack journaling and mood tracking app that visualizes emotional patterns as constellations in a starry sky, created using: **MongoDB, Express, React, Node.js, TypeScript, Tailwind CSS, CSS Modules, JWT, GraphQL, Render***

- Led project planning and architecture for both frontend and backend as team lead
- Designed and implemented secure login, user auth, and journal entry functionality using GraphQL and JWT
- Built interactive constellation interface using custom React components, state management, and CSS animation
- Oversaw codebase structure, accessibility, and responsive design across all major devices
- Facilitated Agile workflows, pull request reviews, and effective team collaboration through GitHub Projects and Slack

EXPERIENCE

Austin Community College | *Tutoring Lab Assistant* | Austin, TX. | January 2024 – Present

- Troubleshoot technical issues and support students in accessing digital resources.
- Guide students to appropriate student services based on their needs

George P. Johnson Marketing | *Customer Service Representative* | Austin, TX. | May 2022 – October 2023

- Delivered customer service via Salesforce CRM software, assist clients & customers through email/text/phone
- Provide tech support and troubleshooting

Guiding Lives | *Data Entry & Organizational Assistant* | Austin, TX. | January 2020 – July 2022

- Managed data entry, correspondence, and scheduling, maintaining compliance with agency protocols.
- Perform office duties in support of faculty, including word processing, maintaining files, and processing mail

Austin Fab & Forge and Neiri Design | *Artistic Metalworker Internship* | Austin, TX. | April 2021 – June 2021

- For this internship, I collaborated with two local fabricators to design, construct, and install custom metalwork pieces, further developing skills such as:
- Mastery of fundamental and advanced metalworking techniques
- Hands-on experience with advanced fabrication tools and practices

Dovetail Custom Wood & Metal | *Welder / Fabricator* | Del Valle, TX. | April 2020 – May 2021

- Read and follow blueprints to weld, drill, grind, cut, shape, bend, and forge metal
- Work individually as well as part of a team

Austin Community College | *Lab Technician Assistant* | Round Rock & Austin, TX. | September 2019 – June 2020

- Assist students and professors with tasks regarding the lab's tools or machines
- Clean and maintain tools and machines in the welding lab

S&S Trails | *Organizational Assistant* | Austin, TX. | January 2017 – September 2019

- Analyze quarterly spending and profit and compile data into a readable format
- Assist with general organizational tasks, data entry, and documentation

World Market | *Customer Service Representative* | College Station, TX. | January 2015 – January 2017

- Handled cash and processed transactions with accuracy and efficiency
- Provided responsive customer service and clear communication

Inner Space Caverns | *Tour Guide* | Georgetown, TX. | November 2013 – January 2015

- Delivered clear, confident public speaking to diverse groups, fostering visitor curiosity and satisfaction
- Cared for exotic animals in the petting zoo, contributing to a well-rounded visitor experience

VOLUNTEER WORK

The Lavender Society, at Austin Community College | *Founder & President* | Austin, TX. | March 2024 – May 2025

- Founded and led a student organization supporting LGBTQ+ students and allies
- Organized meetings, campus events, and outreach efforts to foster inclusivity and community engagement
- Collaborated with college staff and departments to advocate for student needs and representation

Austin Creative Reuse | *Materials and Events Assistant* | Austin, TX. | September 2024 – May 2025

- Organized donations and promoted the organization's mission at community events

Dougherty Arts Center | *Horticulture Assistant & Gallery Assistant* | Austin, TX. | July 2024 – May 2025

- Assisted with garden maintenance, including weeding, pruning, mulching, and planting
- Monitored gallery and artwork, ensuring proper care and handling during events & greeting visitors

ATX ROX | *Event Registration Assistant* | Austin, TX. | September 26, 2024 – September 29, 2024

- Handled attendee check-ins, processed registrations and payments, and provided event information for smooth scheduling and navigation

Wild Wild Westie | *Event Registration Assistant* | Dallas, TX. | July 4, 2024 – July 7, 2024

- Managed check-ins, credential verification, and payments, ensuring data accuracy and guiding attendees on event details

ATX Fusion | *Assistant Event Coordinator* | Austin, TX | February 2023 – February 2024

- Coordinated event logistics, managed attendee check-in, and oversaw food/beverage budgets
